B. F. Hammett & Sons
Mills Building.

Pinos Altos, N.M.

Special Correspondence of The Herald. PINOS ALTOS, N. M., Jan. 11.—Noah Cilmo, we are glad to note, is improving from his sickness of pneumonia.

Mrs. Mortell leaves in a few days for El Paso and will remain until Mr. Mortell gets a haven at his new abode. Pearce, A. T.

The Arizona mine is being worked by the leasers, F. J. Davidson & Co. Heretofore the mines were too wet to work. Now that the Gillett shaft is going down to very near the 1000 foot level, it has drained all surrounding mines.

The Vanderbilts of New York had an expert here last week examining the Golden Giant Mining Co's. group of mines. If a favorable report is given then Pinos will surely be at the front of all camps.

The county commissioners came up a few days ago to look over some road matters.

The old reliable deputy sheriff, H. E. Maese is keeping order here under a new appointment by the new sheriff Arthur Gooddell.

A Pinos Altos lady while coming from Silver City last week was held up by two tramps. The lady gave her horse a few cracks of the whip and left the foot pads in the road.

Harry Maddox is handling the mail coach until Mr. Dunn gets his eyes fixed up.

You may look for some very important mining deals in a few days. The fact is there must be large capitalists looking over our great mining camp, as they claim the mother lode has never been found in this camp. Reasons are from so much gold dust and nuggets that have been gulched out and are being taken out right along, especially so in the wet seasons.

Samples of this may be found in any of the stores here. Old timers predict a second Cripple Creek here.

Mr. Chandler, one of the owners of the Mountain Key mine, has a gang of Mexicans sorting out an old dump which yields him a large profit. Nothing but the first class ore is being sorted.

The Arizona mine is being worked by leasers.

From Grafton.

Special Correspondence of The Herald. GRAFTON, N. M., Jan. 10.—This section has been having cold weather for the past ten days, but cattle are going through the winter in good shape.

Mining men are in good spirits as the mining prospect is brightening up. Petrie Taylor sold the Ashville mine for \$15,000. They received 10 per cent down and the balance is due in ninety days. Walker and son bought this property for New York parties; they also got options on the Montezuma and Alaska mines. Mr. Walker has gone to New York City on mining business.

Mrs. George T. Walker leaves for New York City next week.

B. S. Phillips of Colorado Springs and Thos. M. Longcop of Philadelphia and a mining expert are in the range examining the mining property of Thos. Scales, with a view to purchase.

Terry Bros. have a force of men working on their property north of Grafton.

Charles Laidlaw of Fairview is opening up a fine body of copper ore in the Cuchillo mountains.

WEALTH FROM SCRAPS.

Everyone is more or less familiar, in a general way at least, with the great resources of our country, and the progress that is being made from time to time in their department through the various industrial agencies. This is especially true of all that relates to the principal industries which deal with the great staples of mine, farm and factory, as every movement of interest concerning them is a matter of record in the daily press.

On the other hand comparatively little is known, perhaps, of the many new activities being pursued by resourceful men of wit, whose perceptions have been sharpened by the hard grind of competition.

All the well-known avenues of commerce and manufacture that are popularly supposed to lead to wealth are overcrowded by eager competitors. But occasionally an observant genius of keen mind breaks away from beaten paths to seek profits in unexplored fields. Thus many a profitable business has been built up by the discovery of new methods of utilizing waste materials or products of nature which heretofore have had no recognized value.

In the former category a notable instance is found in a new process of recent discovery, and now in successful operation, for treating tin scrap for the purpose of saving the tin metal which constitutes the coating of the tin plates.

Thousands of tons of tin scrap have been annually consigned to the scrap heaps which accumulate at factories and shops where tin ware in its various forms is manufactured. Its familiar glitter is a feature of every garbage dump on vacant lots and even the practical billy goat, who views all matter from a standpoint of utility, has never solved the problem of its usefulness.

Of the three plants now in operation using the process referred to, two are located in this country, the third being established in Belgium, where the first phenomenal profits were realized. When it is known that tin scrap can be transported across the

situate on proposed electric car line to the smelter, is delightful for situation, and overlooks all the City of El Paso, Juarez, the Rio Grande and its valley, and far into Texas and Mexico. Every city grows toward its higher ground, and El Paso is doing likewise.

In this large tract lots are sold very cheap on installments or for cash.

El Paso Commercial Co.
Room No. 1, Mundy Building.

continent and profitably treated, one may have a fair appreciation of the extent of savings accomplished from what has heretofore been considered absolute waste.

Not only is the tin metal coating thus saved, but when it is removed from the plates or sheets which constitute the body of tin plate, the latter can be utilized by the steel mills for re-rolling into some merchantable form of steel. This can not be done until the tin coating has been removed. Hence the new process not only effects a saving of the tin metal, but renders the remaining scrap fit for use again.

Although the general features of the methods employed for separating the tin metal from the steel are well known, the vital secret, which is carefully guarded by the inventor, lies in certain details of chemical treatment and handling, a correct knowledge of which is essential to successful results. Electricity is an active agent in the process, and it requires a costly plant equipped with expensive machinery to carry on the work. But obviously enough detailed descriptions of the plant and process are not obtainable for publication.

A WOMAN'S AWFUL PERIL.

"There is only one chance to save your life and that is through an operation," were the startling words heard by Mrs. I. B. Hunt, of Lime Ridge, Wis. from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures dyspepsia, Loss of Appetite. Try it. Only 50 cents. Guaranteed. For sale by W. A. Irvin & Co.

Such little pills at DeWitt's Little Early Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels. Fred Schaefer, druggist.

This season there is a large death rate among children from croup and lung troubles. Prompt action will save the little ones from these terrible diseases. We know of nothing so certain to give instant relief as One Minute Cough Cure. It can also be relied upon in grippe and all throat and lung troubles of adults. Pleasant to take. Fred Schaefer, druggist.

When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. Fred Schaefer, druggist.

"MID-WINTER CARNIVAL RATES." The "Santa Fe Route" will make the following rates for the Mid-Winter Carnival, to be held in El Paso January 17th, 18th and 19th, 1901. From all points Kansas City to La Junta, one fare, plus \$2.00, tickets to be sold January 15th., only.

From Denver, (round trip,) \$25.00
From Colorado Springs and Canon City, (round trip,) \$23.00
From Pueblo, (round trip,) \$22.00

From all stations, Trinidad, Colo., and south, three (3) cents per mile, for round trip, excepting that from stations west of Rincon the round trip rate will be one fare.
